Come sit.

three things to do at our booth

01 Sit with the tower

We'll have cushions on the floor around the installation. Whisper one sentence into the tree hole and watch it grow into a pixel spore of your own.

02 Take your spore home

If you love the creature that grew from your words, we'll turn it into a charm or a pair of earrings just for you. Pull up a cushion and make it with us.

03 Tell us how it felt

After you try it, we'd love your feedback. Scan the code to open a short, anonymous questionnaire (2–5 minutes), or just talk to us.
